To utilize my technical and management skills for achieving the target and developing the best performance your organization and I would like to implement my innovative ideas, skills, and creativity for accomplishing project.

PROJECT

Food Restaurant Website

- **Technologies Used:** Core Java, Spring Boot, Hibernate/JPA, Oracle, JDBC, HTML/CSS/JavaScript
- **Description:** Developed a full-featured web application for managing a restaurant's menu, orders, and reservations.
- **Customer Features:** Browse menu, place orders, and make reservations.
- **Admin Features:** Manage menu items, update prices, view orders and reservations.
- **Backend:** Implemented using Core Java, Spring Boot, and Hibernate/JPA for RESTful APIs and database interactions.
- **Database:** Designed and integrated with Oracle using JDBC for data storage and retrieval.
